

Enviroexpert Integrated Waste Solutions

Effectively developing, implementing and managing an integrated waste solution requires a very specific set of expertise, resources and planning. We're here to ensure your organization has the solutions and services you need to implement a scalable program that handles all your waste streams at all your locations.

As your single source partner with our Enviroexpert Integrated Waste Solutions, we offer:

- **Assess and evaluate** your companywide waste management and disposal programs for all waste including but not limited to hazardous waste, non-hazardous waste, pharmaceutical waste, regulated medical waste, universal waste, recycling materials, and secure and confidential documents for shredding. We also assess points of generation and equipment efficiency with focus on evaluating collective effectiveness and identifying needs and conditions for success.
- **Design, Develop, and implement** a plan towards building an effective infrastructure that incorporates objectives identified during the assessment phase. Selecting and combining the most appropriate activities that help meet objectives, eliminate risk, minimize environmental impact, reduce total waste disposal costs, and maximize safety and compliance.
- **Training and Education** is paired with our customized solutions based on industry benchmarks and best-practices and designed by regulatory subject matter experts. We provide on-site customized training that will ready your associates with handling and compliance knowledge to avoid risk and negative environmental impact caused by improper handling or disposal of hazardous waste.
- **Ongoing support** is provided to ensure objectives are being met, effectiveness of activities and overall continuity of operations. We provide the manpower with full-time or part-time [Onsite Enviroexperts](#) to manage and run the program. In addition to ongoing assessment for continuous improvement, document tracking, and management, our support services include safety inspections, regulatory reporting, and timely and accurate billing.

With Environmental Management Services, Inc. on your team, your goals for a sustainable, integrated approach that encompasses all waste streams, locations, and regional variations in regulations could be a reality. We provide you with the tools, expertise, and resources to build a comprehensive recycling, waste minimization, and disposal program that you can be proud of. Call us today for our consultation.
